# BONBON /
BY MÁRIA ČULENOVÁ

Bonbon catches your eye with its hand-blown glass shade reminiscent of a candy wrapper, playfully crimped at the top. This elegant cover is supported by a cut-crystal core lighted element in the shape of a hard-candy. The clean shape of Bonbon and superb quality of its execution speaks to Lasvit's dedication to perfection. A reminder of that special moment we unwrap a favorite candy, Bonbon combines a playful theme with an engagingly delicate form.
