## Identification

Name	SHADOWS XL
Type	suspension lamp
Collection	SHADOWS XL
Line	Exclusive Line
Designed by	Lucie Koldová, Dan Yeffet

BROKIS

## Description

### Features

Paying homage to its typological heritage, the Shadows collection is a new take on the recognized and timeless French atelier pendant spot light. The five-lamp clusters feature different types of glass shade that slide over a wooden neck. The variable fittings allow you to apply your own creativity in composing new lighting experiences every day, while the purity of form is underscored by the hidden light source – a warm LED spotlight.

SHADOWS XL, new for 2015, features a design that holds true to the lines of the original Shadows collection, but it boasts a nearly 50% proportional increase in size. Thanks to its ample dimensions, Shadows XL works well as an independent suspension light and allows for convenient lighting of, for instance, dining tables, bars, etc.

### Technology

The craftsmanship applied in production follows in the centuries-old tradition and experience of master glassmakers. The precision crafting of hand-blown glass instills distinctive, enduring character and outstanding quality in all Brokis products. The glass shades are formed from multiple layers of molten glass, each of which is scrutinized by the master glassmaker prior to being blown into the mold. Up to 70% of the resulting quality is achieved in this stage of production. No less attention to detail is paid in handcrafting the wooden elements of the light. Each piece is individually processed by the artisan in a series of strictly observed production stages. We take special care in selecting quality fine wood and ecologically friendly materials to treat it with.
